Subject: Re: Rosemont Mine

Kathy,

What CEQ has heard from USACE HQ.

"For what it's worth, here's what I've heard from the Corps: their review team recommended that they evaluate an updated mitigation proposal (the last is from Sept 2014 and HudBay believes there are ILFs now available) and possibly seek a meeting between ADEQ, EPA, USFS, and HudBay to get common understanding of the water quality and tier 3 water impacts. Goal is to move fairly quickly to "resolve" the remaining questions they have as part of the "review and assessment" they are supposed to do."

v/r,
Kelly

Subject: Re: Rosemont Mine

Update: R9 Water Division Director Tomas Torres and Acting Assistant Water Division Director Jason Brush are scheduled to meet with Stu Townsley of the Corps' South Pacific Division (SPD) on Friday to find out what transpired in the meeting that SPD recently had with Hudbay. Apparently, Hudbay representative Patrick Cunningham contacted our RA and characterized Hudbay's meeting with SPD as having resulted in reopening the record at Hudbay's request. The Region wants to hear directly from the Corps' what the Corps' perspective is on the situation.

Kathy/Connell,

CEQ is asking if there is any recent news regarding USACE's decision regarding the 404 permit for Rosemont Mine? Has R9 had any recent contact with the Corps regarding the issue. Need any insight by COB today.

Thanks -- Kelly
